

# 4 CARD 4 PLAY

## TABLE LIMITS \$ 5 TO \$100

© J. Baseel/D. Robinson 2001

### THE OBJECT OF THE GAME:

The object is to get a hand with a total as close to 9 as possible.

If you have a 6 and a 7 totaling 13, you use the last digit of 3.

Ten, jack, queen, and king count as 10, so when dealt two cards with a value of 10, making the total 20, you would drop the first digit, and have a value of 0.

Aces have a value of one, and all cards 2-9 count as face value.

The player must set their back hand equal or higher than their front hand.

Dealer must set the back hand as high as possible except when the front hand is 0 and back hand is less than 9. In this situation the dealer must set both hands as close as possible although back hand must still be equal to or greater than front hand

Example: Dealers hand is 10,10,4,3) the hand would be set 10-4 in the back hand and 10-3 in the front hand,

Dealer turns over and sets their hand after all player hands have been set.

### BETTING:

Bets will remain unchanged until the hand is completed, and either won or lost. In the event of a tie, two cards will be dealt from the shoe, a house card and a player card. If the player card is the higher of the two cards the player will win the tie. If the house card is higher, the house will win the tie. If the cards are of equal value, two more cards will be dealt, and the process repeated. If the second set of two cards also tie, the bet will be a push.

### DEFINITION OF A TIE:

A tie of one hand and a win of one hand is a win. A tie of one hand and a loss of one hand is a loss. An actual tie is a tie of both hands or a win of one hand and a loss of one hand.

### COMMISSION:

All winning bets are charged a 5% commission .

## "Jackpot"

To be included in the jackpot a player makes an optional bet of from \$1.00 to \$25.00 in addition to the player's original bet, before the cards are dealt. Only the highest winning combination is paid. The winning payoff odds for players hands are as follows:

1. 4 of a kind suited..... 2000/1
2. 4 of a kind unsuited..... 250/1
3. 9-9 vs. 9-9..... 100/1
4. 3 of a kind suited..... 75/1
5. 3 of a kind unsuited..... 4/1
6. Any two pair..... 3/1
7. Any suited pair..... 2/1
8. A pair of J's, Q's, K's or Aces..... 1/1

**Aggregate payout limit is \$5000.00 per round of play**

**Jackpot wager \$1 - \$25**
